Notes to help when  
saving or using a  
saved card on  
WhatWindscreen

# Tablet, P.C or Smart Phone

## Selecting use a saved card

- Go to the [Account] screen
- In Section 4 – Save Credit Card tick the check box marked “Allow Stripe to save Card details during the next purchase.”
- Your card details will be saved after entering the details on your next WhatWindscreen purchase.

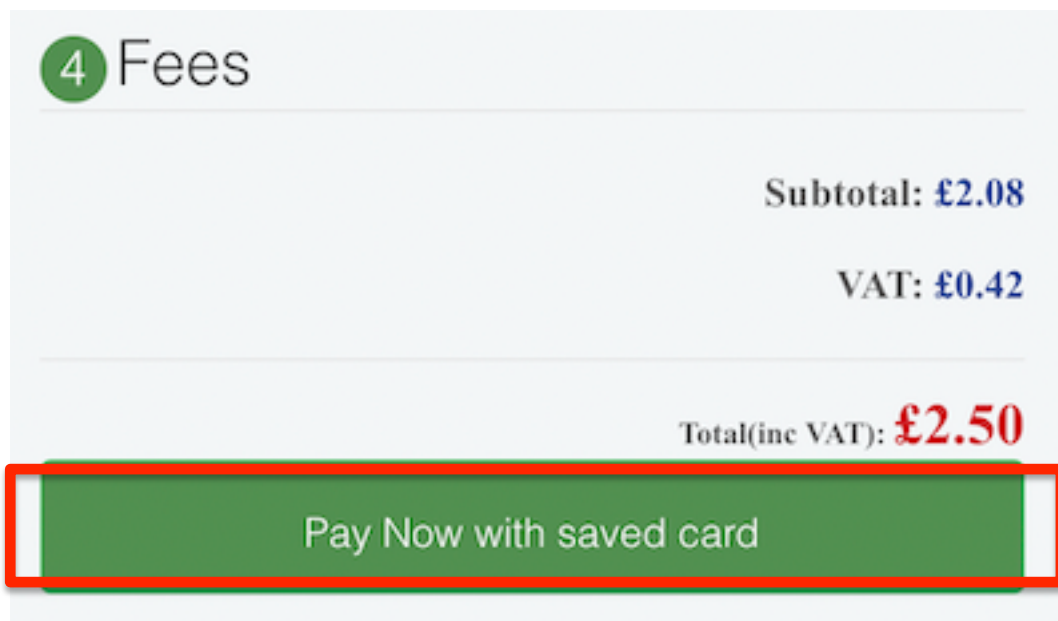

### 4 Save Credit Card

Allow Stripe to save Card details during the next purchase

# Tablet, P.C or Smart Phone

## New Payment Button

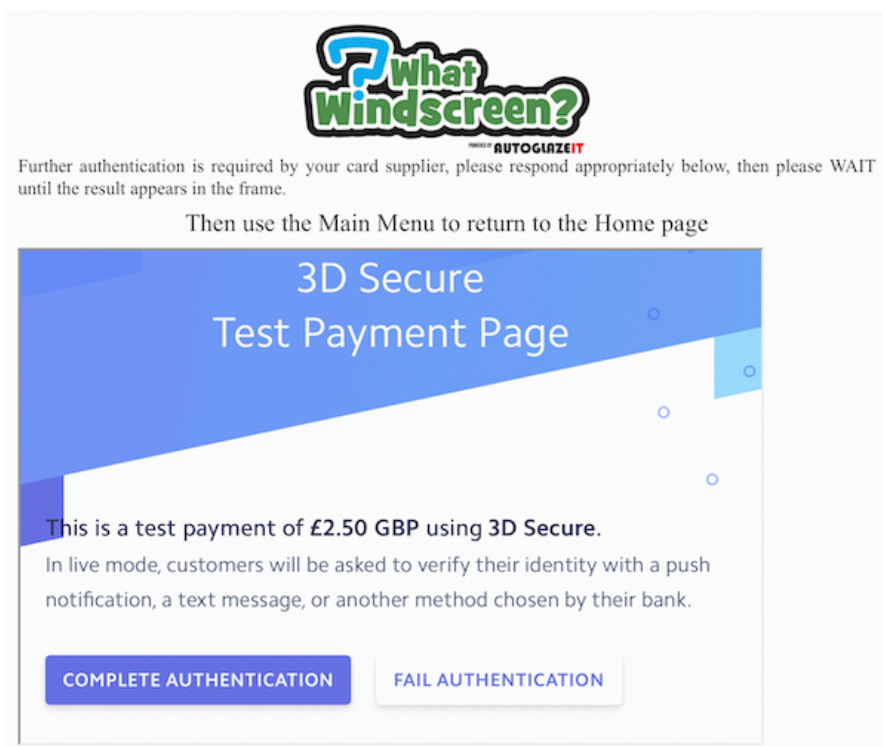

- On the Payment screen, if you have a card saved...
- You will see that the payment button has changed to “Pay Now with saved card”
- A simple click here will complete your transaction.

# Tablet, P.C or Smart Phone

## SCA Authorisation

- Your bank may at some point require SCA authorisation (*See screenshot below*)
- If this happens please follow your banks instructions. We have no influence over this section.

# Tablet, P.C or Smart Phone

## SCA Success

- If successful with SCA you will see another screen (*See screenshot below*)
- When this happens please return to the main [Home] screen to continue.
